

## Bay Isle Pointe Garage Doors

### Garage Doors with Windows

#### Replacement Doors

Replacement roll-up garage doors may be wood or metal and must match the original installed door in design and size

- Doors must have wood-grained appearance
- Doors must be painted with the same paint as the trim or siding to exactly match the siding or trim color and sheen. Powder coating is not an acceptable alternative. Two color garage doors are not permitted.

#### Windows

Garage doors may have windows subject to the following limitations:

- Windows must have long panel design.
- A standard two car garage will have four panels across
- All windows will have opaque/obscure glass
- Windows must in the topmost section/row of the garage door, with one window in the place of each panel.
- Plain window style only is permitted. (see below)
